Comptroller

30 September 1954

Deputy Comptroller

Weekly Activity Report

The Deputy Comptroller met with representatives of Logistics to review the most recent draft of a proposed agreement to be signed by the Chief of Logistics and the Comptroller concerning the responsibilities of the two offices with respect to the audit and settlement of contracts, including cost plus fixed fee and fixed price with redetermination clauses. The only portion of the proposed agreement which the ^{Office of the} Comptroller would not agree with is that which provides that the Contracting Officer can waive audit with respect to fixed price contracts including those with redetermination clauses. The Deputy Comptroller advised the Logistics representatives that the Office of the Comptroller will not agree to such an arrangement; and, therefore, the proposed agreement will not be signed by the Comptroller unless this provision is eliminated. Mr. [REDACTED] of the Office of Logistics agreed to consider and discuss with Mr. Garrison the rewording of this portion of the agreement and that he would advise the Office of the Comptroller further in this regard.
